About Us

As a trusted partner in performance enablement, we empower organizations and professionals to achieve extraordinary results through innovation, collaboration, and human-centered design.

Our proprietary **ENABLES Framework** is the blueprint for success. Through its seven phases we craft tailored performance systems that align strategy, engage people, and drive lasting impact.

The **Performance Enablement System (PES)** is at the heart of what we do. With its five components it delivers performance into every corner of your organization, from vision to results.

We also empower professionals with **CPD-Accredited** certification programs, accredited by the CPD Standards Office UK for global credibility.

Join us to unleash your organization's potential, backed by our expertise, accredited programs, and a passion for excellence.

NEOX

Our Identity

Vision

To pioneer a future where organizations achieve extraordinary results through human-centered performance enablement and seamlessly integrating strategy and execution with innovation and collaboration.

Mission

We are a trusted partner in performance enablement, empowering organizations and professionals to achieve extraordinary results by delivering tailored performance enablement solutions and CPD-accredited certification programs that align strategy, engage people, and drive sustainable results.

CPD Accredited Programs

NEO&'s **Accredited** certification programs from **CPD Standards Office UK** empower professionals to lead performance enablement, delivering globally recognized, practical skills aligned with the ENABLES Framework and PES. Designed to complement our consulting services, these programs: Strategic Planning, Balanced Scorecard and KPIs, Performance Analysis, Employee Experience, and Human-Centered Design and Innovation, equip leaders to drive strategic alignment, optimize metrics, and foster engagement, transforming organizations of all sizes with sustainable impact.

Performance Analysis Professional

Training Overview

The **Performance Analysis Professional** is a results-focused program designed to build participants' capabilities in interpreting KPI data and drawing actionable insights to support performance improvement. The program establishes a structured approach to working with performance data. Participants will learn descriptive and inferential statistics, then advance to regression and multiple regression analysis to uncover relationships, trends, and root causes behind performance outcomes.

Target Audience

- 1. Performance/Data Analysts
- 2. Strategy Professionals
- 3. Human Resources Professionals
- 4. Department Managers
- 5.Team Leaders
